# On the Road towards 2019 The Marketplace, an online platform for drug-related NGOs

*Thursday, 17 March, 2:20pm to 3:10pm in M6*

"Marketplace" is an innovative online platform that gives NGOs the opportunity to present their work, exchange expertise, network and fundraise. The joint UNODC and VNGOC project will be launched during UNGASS 2016. This virtual space will expand civil society connectivity and amplify the valuable input NGOs provide to the implementation of drug policies at all levels. Please join us to see how it works, how you can be part of it and discover the profiles of NGOs working on the ground.
