This survey is a joint effort of the United Nations and the National Bureau of Statistics of Nigeria. It aims at collecting information on your experience and satisfaction with the use of public and private services and about the integrity of officials. There will also be some questions on your experience, as victims, of selected forms of crime and about your experience and confidence in the justice system. This survey is funded by the European Union and will assist the Government, with the support of international partners, in strengthening the quality and integrity of public and private institutions and to improve access to the justice system.

Please answer every question based on your knowledge and experience. There are neither correct nor incorrect answers. Your sincere feedback will bring us a lot closer to better service delivery by public and private institutions. This questionnaire contains no information that could make identifying interviewees possible, thus you will remain anonymous. The completed questionnaires will be treated confidentially and will be processed using statistical methods. Results will be published only in the form of statistical tables.

May I start the interview, now? (1) Yes/ (2) No
